GABRIELA FROM BRAZIL

When I decided to study at **English Unlimited** I didn't have any ideas about the place, teachers or structure. I just imagined a common College. Now, I'm really happy with all my teachers are incredible professionals and are always open to help students with all. My plans are to finish my English course at EU and start Childcare Course next year. I believe that EU was the best choice that I made, a good college and a good community! I'm enjoying my time here and the word for this experience is **Gratitude!**

A young man with dark hair, wearing a brown leather jacket over a white shirt, stands in the center of a coffee plantation. He is looking slightly to his left. The plantation consists of rows of green coffee bushes on either side of a dirt path. In the background, there are wooden poles and a clear sky. The overall scene is bright and sunny.

SENG HKUM FROM MYANMAR

I've been in Australia for two months. I got a new experience and a new life-style within two months. I came to Australia for my education and my future. Australia is my destination for my education. I was happy within two months of experiencing the Aussie life-style. Public transport and living standards are totally different from my native country. I've had a student Visa for two years and eight months. I've found a brighter future in Australia. First of all, I was studying English at [English Unlimited](#). I am getting great teachers and great new friends from all over the world. I am really grateful for the new environment with new experiences. Australia is one of the most multicultural and diverse countries. Australia is really reasonable for international students. Study fees and apartment fees are really fairly priced. So, as a student, I love Australia! I will grab my brighter future in Australia.

CAROLINE FROM BRAZIL

Hi, I'm 26 years old and this is not my first time in Australia. I came here in 2013 for the first time. I was traveling and studying English for five weeks. I fell in love with Sydney and I promised myself to come back to leave here. Now, I'm here and living my dream, like I promised myself 7 years ago. My main priority at the moment is to learn the language. I have got some good recommendations for this college. That's why I decided to start the classes in **English Unlimited**. It has been the best decision I have made in my life. Speaking English is so important. You can meet people, travel to different countries and have good communication with people and find a good job. I like **English Unlimited** and I would definitely recommend it to other people, because it is such a good place to study and to make new friends. The teachers of the college are so nice and helpful. The student's care is professional and always has all the information you need. The school is clean, have a good community kitchen in case you want to bring your food. I'm having such an amazing experience here."

TOM FROM GERMANY

I chose Australia because it was always my dream to see Australia since I was little. Also to learn English I wouldn't go to England neither to USA because there is nothing that makes me want to see it. Australia was always my dream and now it has come true.

My father once said: "I tried to send him to Germany to not see him. After he came back I thought: what country is the most far country. It was Australia". Its just a joke, but I'm thankful to have him. Without him I wouldn't be here. A big thank you to [English Unlimited](#) for making this experience unforgettable.

SCAN ME

PABLO FROM COLOMBIA

Hi! I'm Pablo and I come from Colombia. I arrived in Australia full of expectations and willing to improve my English, but what a surprise that I've encountered myself with so much more. Choosing Melbourne as the city where I wanted to study was not hard at all, because from afar it seemed like a big diverse cultural city. And now that I'm here I can see how true it was. Living the art environment in every coffee shop, every alley and every building. ...And, as an industrial designer, it opens up my mind to get new ideas and expand my creativity. I would like to be a designer here in Melbourne and be a contributor of new experiences for all the people who are coming to this marvellous place by creating my products and taking advantage of opportunities and taking inspiration from the world of possibilities that this city offers me.

MATTEO FROM FRANCE

After 3 years, between New Zealand and Australia of travel and hard work, I wanted to study. I came in Sydney to study at **English Unlimited** and then I'm going to do a degree in the hospitality industry at APC.

After finishing my courses I would like to go back to France and get a manager position in some of the luxury hotels that we have in Europe.

I been studying for one month already and we are followed and surrounded by an energetic and very professional team who is here to help us to improve our English and also looking after our integration in this new city, Sydney.

After school, there are some extra activities everyday organised by Lucas who is here to make sure everyone feels good in their new life... a big thanks to him!

Studying here is an opportunity and a chance for all of you.

JONATHAN FROM BRAZIL

I came to Sydney with the idea of changing my life and to have a wonderful experience to improve my English and my working skills, also because English is very helpful at work.

Three days after I got here, I started at **English Unlimited**, but I was really worried because I was all alone in a new country, without friends, with no work and not knowing fluently the idiom. But then, after a week, everything has changed and I was surprised with the best reception I could have. My classmates became friends with me really fast and we went out together every weekend.

I am also having a great experience at school, the teachers are friendly,

supportive and professional, the way they teach surprised me and helped me a lot to really learn the English language. I learned so much in this one month, more than I have ever learned while studying English at my home country in my whole life, they make classes enjoyable and fun.

The school organizes weekday excursions and many after school fun, if you want, you can do many activities such as ping-pong, yoga, football and volleyball so it makes everything more relaxing and easy.

I have to thank in particular my friend Lucas, since my first day he has been very kind and helpful giving me a hand at everything that I needed.

I am very happy with this experience and recommend it to everyone

ELLEN FROM ITALY

After three years of work and study in Italy, I decided to come to Australia to have a new experience and to learn English. In Italy I was studying English but I never managed to learn it because I didn't practice speaking it. Since I arrived in Australia, I started going to **English Unlimited** and I felt really good! I immediately found myself well with the teachers and also with my classmates who all made themselves immediately available for everything! Since I started studying here my English was better after two weeks! Thanks for everything!

WANLAPA FROM THAILAND

English Unlimited is not just the place where I come to study English, but it gives me more than English skills. I made a lot of new international friends here and I have learnt about many different cultures from them. This makes me feel grateful and happy to be here every day. Although my English is still poor, I feel like I am improving a lot. All the teachers are highly experienced at teaching English. They help me a lot to practise English skills. They are helping me to improve. So now I'm trying to improve as hard as I can. Because I hope one day, I will understand English well. I'm just one in thousands of people who chose Melbourne to come to study English.

It is not easy for me to go some place that I have never been before. I knew no one, and no one speaks the same language as me but that is my point. I was feeling tired of my job in Thailand at that time and I wanted to improve my English skills as well so that's why I have chosen Melbourne. I just came here alone with my self confidence and always thought 'I am a survivor.' I started studying in Elementary class for about six months. That's pretty long, but I enjoyed it. I have learnt everything that I can. I'm happy to learn anything that I don't already know. Now I'm studying in the FCE class.

A man with dark curly hair, wearing a dark blue suit, white shirt, and patterned tie, is sitting on a stone wall. He is smiling at the camera. The background is a lush green vineyard with rows of grapevines. In the distance, there are rolling hills and a small white house with a red roof.

HERVE FROM SPAIN

My name is Herve Beorlegui, I was born in Mali (Africa) and was adopted by Spanish family. I love my two families. In my life I was very lucky, many people have helped me, wherever I go I have people willing to help me. I studied audiovisual communication at the University of Navarra in Spain (Pamplona) and after I did a Master in postproduction, at the TAI school in Madrid (Spain). Since childhood I like moving images, telling stories with both static and moving images. My dreams is one day; traveling for the world and making videos, telling the millions of stories we have in the world and in turn helps us learn. I hope Australia will help me to reach my most desired goal. Sport in general and football in particular is my second life. My experience in **English Unlimited** is being the prettiest of my life, and I hope it continues until I leave.

ANDREQUIELI FROM BRAZIL

My experience with **English Unlimited** is being much better than my expectation!! I really love this school!! The teachers are very good, competent professionals who make the students learn and feel comfortable in the classes, which are always fun and delicious to attend! Another thing I love about school is the fact that it is promoted very cool excursions and different activities every week! This allows us to interact and get to know many people beyond our classmates and obviously improve even more English.

The advice I would give to students who are thinking of studying in Australia, would be: Come on!! And live this incredible experience that will be a watershed in your life! And come with clear goals, but with a very open mind to try new things! This is a country that offers all kinds of opportunities, and we need to be focused on what we want to achieve in this time here, and allow us to live things different from what we live in our own countries, especially professionally speaking. And it's okay to live it here, because absolutely every experience you have the opportunity to live here, will teach you a lot!

PIM FROM THAILAND

Hi my name is Pim. I'm from Thailand. I learnt about public administration for four years at university. After graduation, I lived with family and friends. I ate, travelled, listened to music, played games and watched movies before studying English in Australia. In the future, I want to be a tourist police officer. I want to help and take care of security for foreigners who come to travel in my country, so I chose to study English to help me to be better at my job and to take care of my parents in the future.

testimonial](#)

DIVIN FROM FRANCE

After finishing my studies in France, I wanted to go learn English abroad, and a friend of mine told me about Sydney. I did not agree at the beginning, because of the distance with France, but today it's been 1 month that I study at ([English Unlimited](#)) and I do not regret my decision. I met a lot of different countries, I visited incredible beaches, today I advised everyone to come to Australia and especially to Sydney! the teachers are great, they take the time to explain and correct you so that you can fulfill yourself personally.

AYUMI FROM JAPAN

I chose to study here because of a tour guide I met 4 years ago who told me about Australia and her life story. From that day on, I felt like Australia was very much 'me' (everything from the people to the lifestyle to the environment). Living here has given me a much more positive outlook on life. I got here 5 months ago and started meeting people from all over the world. I have so many foreign friends now who have been so kind and helpful to me and have shown me so much love. I have learnt so much from them and this amazing experience

A young woman with dark hair, wearing a light blue long-sleeved dress, is smiling and leaning on a white railing. She is outdoors, with a body of water and a distant shoreline in the background. The scene is brightly lit, suggesting a sunny day.

BOW FROM THAILAND

I'm from Thailand. I had a job in Thailand before I came here but my English is too bad to work with foreigners. I love to watch movies. I also like to listen to soundtracks. I need to improve my English so that I can enjoy movies more, and that's why I came here to study. The first day I was here I felt so lonely and so sad. But I have good friends and classmates. They're helpful, friendly and we became close quickly. For my goal, I hope my English gets better, I get a good job have lots of good experiences. Oh, and to develop my skills for the graphic design course I have coming up.

testimonial](#)

LIVIA FROM SLOVAKIA

After six years in my work as a waitress I decided to change my life and apply for a study visa in Australia. When I got the visa I was really happy, because I knew my life would change and so it has. When I came to **English Unlimited** I couldn't speak English very well, but after three weeks I improved my English and I can speak better now. I am in Upper intermediate, but next week I am heading to Advanced thankful to teachers. Teachers are really nice, always helpful and patient. After school there are a lot of activities, for example yoga class or table tennis. School organizes a lot of activities for students, also parties and watching movies, also every month we go on some trips, for example to museums, beaches or on BBQs, where we can speak with lots of people from foreign countries and make new friends. If you need some help, there is always Lucas, Student Experience Coordinator or Student Care. They are very nice and always try to help you. Now I have a visa for 2 years and I can enjoy every day in Australia, because I am able to speak in English. I am thankful to school, teachers and student care.

CARLOS FROM COLOMBIA

After studying and working for many years, I took the decision to apply for a study visa. At the beginning I was scared about the future, but I knew that I had to improve my English level, because I am sure it will bring me great job opportunities. I came to Melbourne one month ago and now I think it has been one of the most exciting experiences of my life; after 3 weeks of **English Unlimited** I have improved my vocabulary and communication skills. I am sure that in a few months I am going to achieve my goal of speaking fluently, but of course I know that I have to go step by step, every day. I encourage people to do something new in their lives and accept the challenge of study abroad, get new exciting experience and meet new and interesting people from different countries.

A man with a full dark beard and long hair, wearing a white t-shirt, is sitting outdoors on a wooden bench. He is smiling broadly at the camera. Behind him is a large, leafy green tree and a yellow patio umbrella. The scene is bright and sunny.

JONATHAN FROM ITALY

I was a little bit bored about my life in Italy so I decided to come to Australia and see another part of the world, just for a new challenge in my life. After that, I understand that maybe I need an English course to improve my English, so I enrolled at English Unlimited.

Now my English is better and I am more confident with the Australian society. Today is my last day and it was a wonderful experience and will always stay with me.

**WATCH MY
TESTIMONIAL**

A young woman with long dark hair, Margarita, is smiling at the camera. She is wearing a white t-shirt. Behind her is a red brick wall with several hanging plants featuring green leaves and bright pink flowers. The scene is brightly lit, suggesting a sunny day.

MARGARITA FROM COLOMBIA

Being in Australia is the most fascinating experience that I have had until now. It is an experience full of colours, joys, sorrows; in other words, many sensations that have made me grow up.

I have been here for just one and a half months and it is confusing because I feel that the time goes so fast, but I also feel that it has been a long time. This is the first time that I have left my country and I have travelled overseas for 17,000 kilometres to know different cultures, dishes and people.

English Unlimited has helped me not just with the improvement of my English but also with meeting new people from all over the world. Everyday in Australia and all day at college you learn new things about life and of course about English. I dare say you could meet new people every day. There are a lot of language exchanges, the college has a lot of extra classes and people here are so friendly, that here, it is impossible for you to feel alone. It's a once in a lifetime experience.

TAPANAWAT FROM THAILAND

I came to Australia because I wanted to improve my English skill and I hope I will have graduated my Master's Degree by 2027 and this is my story.

I'd like to tell you about my first achievement and I think this is the proudest moment in my life because this achievement changed my life forever. It started in around 2008, I was 85kg. I knew the amazing sport called basketball. This sport encouraged me to lose my weight. My friends, my family and all the people I knew told me it is impossible for me to lose weight or play basketball well. I had set my goal: If everyone could do it, why couldn't I? So, I worked hard all summer and I lost 15kg in four months. I trained for basketball and went to the gym everyday and I changed my diet. Finally, I did it in early 2010 and achieved the MVP award from International Thailand Basketball Cup U-14. I proved to everyone that I could do it. This experience totally changed my mind: "Don't let someone tell you that you can't do something. If you've got a goal, you've gotta protect it."

NADIA FROM CHILE

I have been at **English Unlimited** for almost three months and believe me, I really enjoy coming to school. Of course, maybe the worst thing is waking up early, but really, I enjoy my class with the teachers and the games and the most important thing is sharing with my classmates and learning about their countries. It's better now if I call them friends because I promise you, if you feel bad or don't know what to do and need someone to talk to, a lot of people will be there for you on the fourth floor of EU to give you a smile and a hug. So, I think that moving to Australia has been the best decision that I have made.

Obviously, I miss my country and my family, but I feel very happy to be here living this new experience.

Before I came to Australia I had been working with autistic children and children with speech problems. Every child needs a special activity to complete their goals. I really miss my kids and playing with them and seeing their progress, when they say their first words and begin to speak better.
